(a) LaSRC − L1C
UT2 Secondary forest or wetlands undergoing restoration
129 observations; 4 farms; 6 polygons
UT3 Scattered trees in pasture and vegetative succession
471 observations; 14 farms; 28 polygons
UT4 Agroforestry crops
68 observations; 3 farms; 3 polygons
UT7 Intensive silvopastoral system
36 observations; 2 farms; 3 polygons
UT6 Agricultural land with vegetation cover greater than 80%
567 observations; 17 farms; 32 polygons
UT8 Other agricultural practices
256 observations; 10 farms; 16 polygons
